Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 July 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

REJECTIONS WITHDRAWN

The claim objections set forth in the non-final rejection of 5/10/05, page 3, paragraph 5 have been withdrawn.

REJECTIONS REPEATED

All of the 35 USC 102(b) and 103(a) rejections set forth in the non-final rejection of 5/10/05, pages 3-5, paragraphs 6-11. Applicant has added the new limitations "formed by an injection molding process" and "for the injection molding process" to claims 1 and 12. However, said limitations are method limitations in a product claim and have been given little patentable weight since the method limitations do not further limit the product claims in terms of structure (MPEP 2113). Claim 20 recites an intended use (i.e. "providing a storage battery" and "inserting said rod into said opening in said storage battery") and has been given little too no patentable weight since it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

NEW REJECTIONS

There are no new rejections.

ANSWERS TO APPLICANT'S ARGUMENTS

Applicant's arguments filed 7/20/05 have been carefully considered but are deemed unpersuasive.

Applicant has added the new limitations "formed by an injection molding process" and "for the injection molding process" to claims 1 and 12. However, said limitations are method limitations in a product claim and have been given little patentable weight since the method limitations do not further limit the product claims in terms of structure (MPEP 2113).

Claim 20 recites an intended use (i.e. "providing a storage battery" and "inserting said rod into said opening in said storage battery") and has been given little too no patentable weight since it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

Conclusion

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1772

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
